#### **Detailed Action**

## Response to Amendment

Claims 1-4, 9-10, 12-15, 20-21, 24, 27-29, 31-47, 51, and 53-61 are pending. This action is in response to the amendment received August 3, 2007.

## Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-4, 9-10, 12-15, 20-21, 24, 27-29, 31-47, 51, and 53-61 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 57-61 have been amended to recited "a net position" which does not appear to be in the originally filed specification. Thus, the recitation must be treated as "new matter". However, if the applicant does not believe that this subject matter is "new matter", an appropriate explanation is required including pointing out where support for this subject matter can be found in the origin specification.
